

testandgo™ Kiosks

A Revolutionary Approach to Contactless COVID-19 Testing.

Self-service kiosks now offer 24/7 access to COVID-19 rapid and PCR tests!

Safe and Confidential.

- Provides a secure and discrete way to obtain highly reliable test results.
- Eliminates unnecessary interactions with health care practitioners and store clerks.
- Safeguards personally identifiable information with advance data security.

Easy and Flexible.

- Allows registration and testing to take place at the kiosk or at home.
- Provides rapid results or sends your PCR test results via email or phone within 48-72 hours.
- Offers instructions in English, Spanish, and other localized languages.

Accessible and Sustainable.

- Minimizes disruptions to the community.
- Ensures tests are available 24-hours a day, seven-days a week.
- Supports state readiness for future outbreaks or other public health concerns.

FREQUENTLY ASKED QUESTIONS.

Q: Why kiosks?

testandgo™ Kiosks offer an easy and discrete way for individuals to receive highly accurate rapid and PCR tests. They operate 24-hours a day, often in open-air environments, to reduce the spread of COVID and eliminate the need for overcrowded waiting rooms and unnecessary doctor visits.

Q: Who should use testandgo™ kiosks?

Those who are experiencing symptoms or who have been in close contact with someone who has the COVID-19 virus should get tested, regardless of their vaccination status. testandgo™ tests are available at no cost to those aged two-years or older.

Q: Where are the kiosks located?

testandgo™ kiosks are located throughout the U.S. Link the below link to find the one nearest you: <https://lts.com/icatt-testing>.

Q: Who developed testandgo™ kiosks?

Herndon VA-based digital transformation firm LTS developed testandgo™ kiosks to solve a nationwide problem with health equity and access to vital public health resources. As experts in blending technology with human-centered experience, LTS brings two decades of experience providing enterprise consulting, IT modernization, and healthcare innovation services to support the testandgo™ kiosk concept.

Q: What does the future hold for testandgo™ kiosks?

testandgo™ kiosks currently offer both rapid and PCR tests for COVID-19 testing. With the ability to be both transformed and transported to meet changing community needs, these kiosks will soon expand to include additional medical products, harm reduction treatments, and preventative care products. To learn more, go to testandgo.com.

Q: When can I expect to receive my results?

testandgo™ kiosks offer both rapid testing for immediate results and PCR tests that typically provide results within 48-hours. If you do not receive results within 72-hours, please contact the support team at 1-800-402-0000.

Q: Who can I contact to get more information?

If you would like to know more about future possibilities for testandgo™ kiosks, including how they can be repurposed for influenza, HIV, or sexually transmitted diseases testing, email media@lts.com
